

In the Specification:

Page 4, between line 7 and 8, please insert the following paragraph:

The supporting edge 5 and holding edge 4 together form a continuous cylindrical outer circumferential surface 45 of the lens, which extends over an outer side of both the supporting edge 5 and the holding edge 4 as well as around an outer circumference of the lens. The supporting edge 5 of the lens is not set back or set in from the outer peripheral edge of the lens in the preferred embodiment shown in figure 1.
